# CABO BLANCO ABSOLUTE RESERVE

## Park history and tour options:

The Cabo Blanco Absolute Natural Reserve, created in 1963, is recognized as the first protected area of Costa Rica. Here we have the opportunity to show you the magic of its forest, the important history that surrounds it, as well as the great impact it had on the Costa Rican economy and conservation.

This tour is perfect for nature lovers. During this enriching tour, you will have a local guide specializing in nature and history. You will begin the day discovering the wonders of this tropical forest in transition, perfect for watching birds, mammals, and reptiles, as well as giant and native trees. This tour is only available from Wednesday to Sunday due to park policies.

## To enjoy all the wonders of Cabo Blanco we have two options:

**1. Cabo Blanco Morning Hike:** This walk will take about 2 hours and 30 minutes through the tropical forest, where you will be able to observe several species of flora and fauna, know its history, and with the help of our guide you will understand the relationships and complicity of this important ecosystem.

**2. Cabo Blanco Beach & Forest – Full Hike:** This option is perfect for those who love nature and relaxation. This activity combines a hike of about 2 hours (each way), where our guide will show you the wonders of this forest until you reach Cabo Blanco beach, a paradisiac white sandy beach where you can enjoy quiet waters for swimming, sunbathing, or simply to enjoy the striking view of Cabo Blanco Island.

**Length:** 4 hours short hike / 6 hours full hike

**Tour includes:** Transportation, entrance fees, private guide, fresh fruits, and snacks.

**Wear/bring** comfortable cool clothing, walking shoes, sunscreen, insect repellent, bathing suit.

## Departure times:

## CURU WILDLIFE REFUGE

This area is teeming with abundant wildlife and hosts one of the most beautiful beaches and protected bays on the Nicoya Peninsula. The refuge offers easy access to seeing some of the most sought-after species such as White-Faced, Howler monkeys, Spider monkeys, Scarlet Macaws, White-Tailed Deer, Collared Peccary, Coati, Raccoons, Coyotes, Iguanas, and hundreds of species of tropical and migratory birds. Curú is Costa Rica's first private national wildlife refuge and is an example of a successful sustainable development program. The estate still includes low levels of cattle grazing and produces tropical fruits, such as mangos, annually; however, tourism, educational school groups, and researchers are the focus of Curú today. Curú National Wildlife Refuge is managed sustainably to produce profit and local employment while protecting its threatened and endangered forested habitats such as mangroves, tropical moist, dry forests and coral.

The walk will take approximately 2 hours and 30 minutes and you'll be able to appreciate a diverse species of wild animals and plants.

**Length:** 4 hours.

**Tour includes** Transportation, local naturalist guide, park entrance fees, fruits, drinks & snacks, and all insurances & taxes.

**Wear/bring** Walking shoes, environment-friendly repellent, binoculars, camera, bathing suit, sunscreen, towel.

## BUTTERFLY EXPEDITION

Costa Rica has about 12,000 different species of butterflies, just over 11% of the world's species, making it one of the best destinations for observing and exportation of these forest wonders. We invite you to discover the world of butterflies from an ecological and sustainable point of view. Our naturalist guide will show you the entire life cycle of these wonderful creatures while walking in tropical plant gardens designed for butterflies to fly around while learning from them.

On this tour, we will visit two butterfly gardens. The first is located in the small town of Cabuya where production and export are the primary focus. Here we discover the delicate process at each stage and explore the full life cycle of these exquisite creatures, a great learning experience for children and adults alike.

Our second stop will be in Montezuma where we collaborate with the work of the farm from gathering eggs to butterfly feeding to collecting cocoons (kids love this part of the tour). This excursion will take approximately 4 hours and 30 minutes allowing an ample amount of time to appreciate a variety of butterfly species and wild plants.

**Length:** 4 hours.

Tour includes: Transportation, local naturalist guide, entrance fees, fruits, drinks & snacks, and all insurance & taxes.

**Wear/bring** Walking shoes, environment-friendly repellent, binoculars, camera.

## BIOLUMINESCENCE TOUR

There are few places in the world where you can experience bioluminescence throughout the year. And fortunately for travelers to the Nicoya Peninsula, here is one such place. Bioluminescence is a magical show created by living organisms through a chemical reaction, natural light.

In the gulf, it's the algae that create this magical effect. When disturbed, the algae emit a burst of light. Since there are millions of them, they look like sparks in the water. The wavelengths are blue to green in the area, and depending on the number of algae, will appear as bluish or greenish flashes.

One of the best ways to see this phenomenon is snorkeling, wearing these masks, you'll be swimming around stars, which is a great way to get a good look at it, the fish will move rapidly and look like underwater fireworks as they take off, leaving a trail of "fairy dust" in their wake.

The guide will fully instruct you on the safety and issues of snorkeling at night and teach you all about this biological show while enjoying the relaxing ride.

This tour takes place at Playa Los Vivos, before the light fades away, you'll be able to navigate spotting wildlife in the mangrove, enjoy a picnic on the beach, and when the bay gets dark enough, you'll be ready to experience a unique biological show that you'll remember a lifetime.

**Length:** 4 hours.

**Tour includes:** Transportation, local naturalist guide, snorkeling gear, fruits, drinks & snacks, and all insurance & taxes.

**Wear/bring** Water shoes, swimwear, environment-friendly repellent, a towel, and a camera.

### Departure times:
